

555 PS DR

Product sheet

Not everyone sees hi-fi as we do. For us, a smooth, stable, low-noise power supply isn't just desirable: it's fundamental to proper hi-fi performance. Nowhere is that belief more clearly exemplified than in our reference 555 PS DR, the best power supply in our portfolio.

Whatever Naim Audio product it partners, the 555 PS DR will improve every aspect of your favourite music. Voices and instruments become clearer and more natural. Perceived dynamic range increases too, while timing – music's fundamental sense of rhythm and accuracy – snaps into even greater focus.

Key points

- Seven regulated supply voltages.
- Low-resonance case with isolating feet.
- Supplied with Power-Line mains cable as standard.
- Discrete Regulator (DR) configuration delivering Naim Audio's best-ever standard of stable, low-noise power.

Specifications
